

Valley Edge BESS is a 250-megawatt (MW) battery energy storage system (BESS) proposed for development near the intersection of Township Road 381 and Range Road 260 in Red Deer County.

Valley Edge BESS is a standalone BESS intended to store and discharge electricity from the Alberta Interconnected Electric System (AIES), and to provide ancillary services such as frequency support, virtual inertia, and network support.

Neoen is a developer of exclusively renewable energy technologies with a portfolio capacity of 8.7 GW across 14 countries.

To learn more about Valley Edge BESS, visit www.valleyedgebattery.ca.

Community Open House

Consultation is underway, and we want to hear from you!

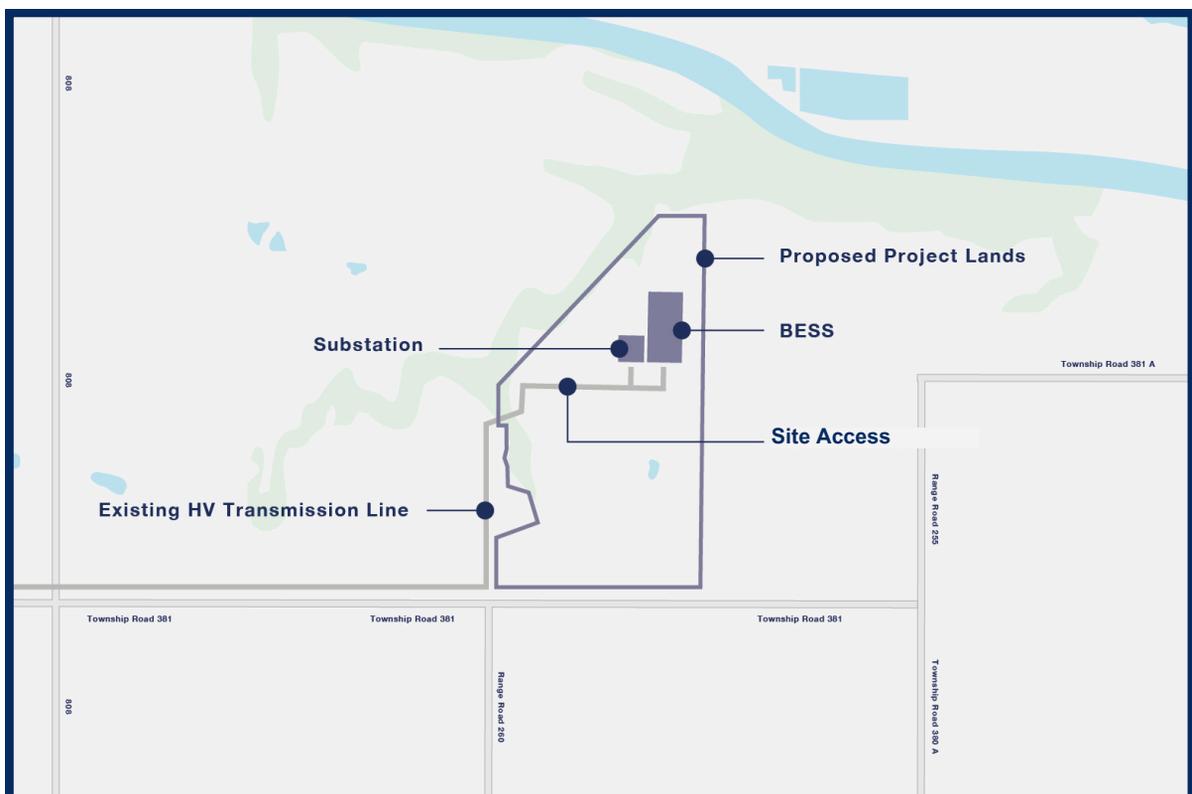

Join us for a drop-in open house on **Tuesday March 11, 2025**. Meet the project team and learn about:

- Project Layout
- BESS Technology
- Environmental Assessment
- Development Process

Feedback gathered will form part of a consultation record submitted to the Alberta Utilities Commission.

5:00 pm – 8:00 pm

Valley Edge Centre Community Hall
38062 Range Road 260, Red Deer
County, AB T43 1Z2

If a significant weather event occurs, the open house will be rescheduled and notice will be posted on www.valleyedgebattery.ca

Contact Us

Can't attend the open house? You can request information, ask questions, and share feedback by:

- Phone
- E-mail
- Mail
- Online (via Feedback Form)
- Request a 1-on-1 meeting
