

Notice of Archaeology Work

What's Taking Place?

On **Monday September 21st, 2026**, in collaboration with the Saugeen Ojibway Nation's Environment Office, crews will perform archaeology works at 752 Concession Road 2, the proposed development site for Neoen Battery.

What to Expect

- Work will begin on Monday September 21st, 2026, and will continue for approximately 6 weeks.
- Crews will be on site Monday to Friday 8:00 AM to 4:00 PM.
- Excavation will be completed primarily by hand using standard archaeological tools.
- No heavy construction machinery will be used for the archaeological work.
- The archaeological work will take place outside the area proposed for project construction.

Project Location

752 Concession Road 2, east of Highway 21, approximately 5 kilometers south of Port Elgin, the proposed development site for Neoen Battery.

About Neoen Battery

Neoen Battery (formerly Tara Battery) is a 400 MW / 1,600 MWh, 4-hour duration standalone battery energy storage project. In May 2024, the project was awarded a 20-year contract by Ontario's grid operator, the Independent Electricity System Operator (IESO), to help meet growing electricity demand by storing and supplying up to 400 MW of power for a 4-hour duration. Neoen will charge and discharge power directly from/to the high-voltage grid, optimizing the use of existing resources.

About Neoen

Founded in 2008, Neoen is a leading independent power producer of exclusively renewable energy with over 10 GW of capacity in operation or under construction across four continents. Since entering Canada in 2022, Neoen has secured more than 1 GW of capacity, including a 200 MW solar project co-owned by Garden River First Nation, set to be Ontario's largest solar farm; a 50 MW solar project co-owned by Matachewan First Nation; a 200 MW battery facility co-owned by Eagle Lake First Nation; Mino Giizis Solar Facility (100 MWp), Saskatchewan's largest solar farm, co-owned by Anishinabek Power Alliance; and Fox Coulée (93 MWp).
